

Root EV Newsletter

Hello

Welcome to the very first Root EV newsletter.

We wanted to start by saying a huge thank you for your support during our first year of business. We are grateful for every kind of interaction with you, big or small. Our aim with this newsletter is to release it quarterly to bring you updates on new ebikes available, offers, tips on ebike care and maintenance and much more.

NEW GAFF

In January we moved into our new premises in Aberuthven, just off the A9, 10 miles outside Perth. We are delighted with the space. There are excellent tracks to test ride our bikes and plenty of free parking. Get in touch if you want to drop by!

HIMIWAY

Root EV are one of the few dealers of Himiway ebikes in the UK and they are becoming increasingly popular. They are powerful and incredibly durable bikes.

On average, the range of Himiway e-bikes can reach 43% higher than other e-bikes on the market, up to 60-80 miles on a single charge.

OPEN DAY

We are so excited to be hosting our first open day at our premises in Aberuthven. This is a chance for people to drop by, have a chat with us, try out some different bikes and discover if an ebike is something that could enhance your life or be a benefit to your business. Saturday 4th May - 10am - 3pm

New Bikes on the Block

It's been a busy time over the last six months with lots of new bikes on our virtual shelves - and in real life, with most of these bikes available to test ride.

E-go Folding Ebikes

We recently introduced the E-go bikes to our range. E-go are a folding bike specialist and they offer a range of light weight ebike options.

[Explore E-go](#)

Mountain Ebikes

Our friends at Himiway have introduced some incredible ebikes to their range - both in terms of power and style. The most recent being the Cobra (pictured), the Zebra and the Big Dog. Amazing bikes!

New from Synch

Our friends at Synch are doing what they do best and have produced the coolest cargo bike and a Step Through version of their Long Tail Monkey. Synch bikes are all about fun and these newbies are no exception.

Why Root EV?

We are a family run business, endeavoring to build something really special; legacy that we can pass onto our kids.

We source and supply some of the best ebikes from across the UK and beyond. Our range is evolving as new technology and customer needs and wants change.

Customer service is so important to us - we like to make sure you're taken care of. From choosing the right bike for you, building and checking over your bike, delivery to your door and then ongoing maintenance. We're there every step of the way!

Coming soon to
Root EV...
